

The benefits of the

Premier 'EDGE'

U Value
1.3 w/m²k
(overall roof)

Premier Frames

Design

- Edge-to-edge glass technology
- Stands only 63mm above the upstand
- Ultra-modern and sleek style - it breaks the mould in flat rooflight design
- Minimal internal and external sightlines
- Shatterproof laminated glass
- No protruding frames
- No water penetration through fixing points
- Fastened from the inside, providing high performing security
- No mastic line around glass, allowing water to glide off the edge

Simple Installation

- Delivered in one piece, with its fixing straps already attached
- No "extra bits" needed, providing quick and easy installation
- Fastened from the inside with no external fixings
- Internal plasterboard pocket for easy boarding and plastering
- 5 degree pitch recommended

Thermally Efficient

- Overall U Value (glazing and frame) 1.3 w/m²k
- Thermally broken aluminium frame
- 6mm toughened safety glass externally and 6.4mm softcoat laminated safety glass internally as standard
- Laminated glass provides safety, security, noise reduction and 98% reduction in UV rays preventing sun bleaching
- 20mm argon warmedge
